A Grain of Wheat is a novel by Kenyan novelist Ngugi wa Thiong'o first published as part of the influential Heinemann African Writers Series. It was written while he was studying at Leeds University and first published in 1967 by Heinemann. The title is taken from the Gospel According to St. John, 12:24. The novel weaves together several stories set during the state of emergency in Kenya's struggle for independence, focusing on the quiet Mugo, whose life is ruled by a dark secret. The plot ...

processes and issues.

## *A Grain of Wheat by Ngugi wa Thiong'o - Goodreads*

A Grain of Wheat is considered one of Kenyan author Ngugi wa Thiong'o's greatest literary achievements. The title derives from 1 Corinthians 15:36: "How foolish! What you sow does not come to life unless it dies"; the verse John 12:24 also applies: "Very truly I tell you, unless a kernel of wheat falls to the ground and dies, it remains only a single seed.

Overview. Published in 1967 by Kenyan writer Ngugi wa Thiong'o (who also published under the name James Ngugi), A Grain of Wheat takes place in Kenya on the brink of its Uhuru (independence from British colonial rule) in December 1963. The novel considers the effects of British rule on several residents of the fictional village of Thabai, many of whom suffered enormously after the real life rebellion by the Mau Mau, or the Kenya Land and Freedom Army, led the British to crack down ...

Each grain or kernel of wheat consists of a wheat plant embryo called a germ (as in germinate), protected by a thick outer coating called the bran and fueled by the protein-rich endosperm. These resources protect and nurture the wheat germ, allowing it to grow out of the soil into a new wheat plant.

mass of a single virtual ideal seed of a cereal. From the Bronze Age into the Renaissance the average masses of wheat and barley grains were part of the legal definitions of units of mass. Expressions such as "thirty-two grains of wheat, taken from the middle of the ear" appear to have been ritualistic formulas, essentially

## *Grain (unit) - Wikipedia*

The ancient grain, varying from one culture to the next, was defined as the weight of a designated number of dry wheat (or other edible grain) kernels taken from the middle of the ear.

## *Grain | unit of weight | Britannica*

The number of grains of wheat on the first half of the chessboard is  $1 + 2 + 4 + 8 + \dots + 2,147,483,648$ , for a total of  $4,294,967,295$  ( $2^{32} - 1$ ) grains, or about 279 tonnes of wheat (assuming 65 mg as the mass of one grain of wheat). The number of grains of wheat on the second half of the chessboard is  $2^{32} + 2^{33} + 2^{34} + \dots + 2^{63}$ , for a total of  $2^{64} - 2^{32}$  grains. This is equal to the square of the number of grains on the first half of the board, plus itself.

Malta (English Culture), course: The Postcolonial Novel 1: African, language: English, abstract: The three questions this paper tries to answer are to what degree the African women in both novels are or are not being dominated, what plays a role in this power-play and whether there is a significant difference between the depiction of women in the two novels, as they are set in two different African regions, Kenya and Zimbabwe. In the first section, the historical background of both plots is outlined, followed by an analysis of selected female characters of both novels. In the last section, conclusions will be drawn comparing both novels, its characters, its authors and the respective history. Men used to, and still do to some extent, dominate the literary sphere in Africa; therefore, the depiction of women was mostly that of a dutiful wife and mother. When this one-sided standard wasn't met, the rebellious protagonist was shown to 'suffer the tragic fate of the non-conformist', which comprehended dying or being outcasted. It might seem harmless at first, as it is 'just' literature, but it is important to consider the influential power it has on people's perception of the world. For this reason, it became more and more important to analyze the representation of women in books and change it to a more positive picture. As the canon of female African writers started to grow, so did the multiplicity of different depictions of female characters. This change of view was not only to be found in female authors, but in male as well. Both Ngugi wa Thiong'o's A "Grain of Wheat" and Tsitsi Dangarembga's "Nervous Conditions" depict different types of women and their dual struggle in finding their own female identity against both patriarchy and the colonizer.

Unless a Grain Falls guides us through a son's journey through the death of his father and a changing view of God. Hobbs writes with an honest, gentle, and faithful hand through all of these experiences using the framework of the Christian season of Lent. from Ash Wednesday: "On that Friday, at six in the morning, I awoke with just a hint of light in the room and the sounds of medical staff scurrying to complete the work of their shift. I woke up for that last moment, for my father's leaving. As I stirred, I could tell that there was a change in him, a change in his breathing. I listened for a while, not knowing what the change meant, except that my father was pausing more between breaths. He would breathe in deeply. Pause. Then release a long, large exhale. Then pausing again. My mother was asleep in the chair beside him. And then there was one last large exhale, a final emptying. And I waited there, on that fold-up bed against the wall, just listening. He was gone." Jason B. Hobbs, LCSW, MDiv, is a licensed clinical social worker at a private outpatient mental health clinic. He has been in private practice for almost fifteen years. His earlier professional background includes work in hospice, homeless services, and pastoring a small United Methodist congregation in south Georgia. Jason holds a Master of Social Work from Virginia Commonwealth University, a Master of Divinity from Baptist Theological Seminary at Richmond, and a Bachelor of Arts in English from the University of Georgia. Most recently, he completed training to as a Spiritual Director through Shalem Institute.

"A compelling agricultural story skillfully told; environmentalists will eat it up." - Kirkus Reviews

When Bob Quinn was a kid, a stranger at a county fair gave him a few kernels of an unusual grain. Years later, it would become the centerpiece of his multimillion dollar heirloom grain company, Kamut International. How Bob went from being a true believer in better farming through chemistry to a leading proponent of organics is the unlikely story of *Grain by Grain*. Along the way, readers will learn how ancient wheat can lower inflammation, how regenerative agriculture can bring back rural jobs, and how combining time-tested farming practices with modern science can point the way for the future of food.

Includes a sneak peek of *Undoctored*—the new book from Dr. Davis! In this #1 New York Times bestseller, a renowned cardiologist explains how eliminating wheat from our diets can prevent fat storage, shrink unsightly bulges, and reverse myriad health problems. Every day, over 200 million Americans consume food products made of wheat. As a result, over 100 million of them experience some form of adverse health effect, ranging from minor rashes and high blood sugar to the unattractive stomach bulges that preventive cardiologist William Davis calls "wheat bellies." According to Davis, that excess fat has nothing to do with gluttony, sloth, or too much butter: It's due to the whole grain wraps we eat for lunch. After witnessing over 2,000 patients regain their health after giving up wheat, Davis reached the disturbing conclusion that wheat is the single largest contributor to the nationwide obesity epidemic—and its elimination is key to dramatic weight loss and optimal health. In *Wheat Belly*, Davis exposes the harmful effects of what is actually a product of genetic tinkering and agribusiness being sold to the American public as "wheat"—and provides readers with a user-friendly, step-by-step plan to navigate a new, wheat-free lifestyle. Informed by cutting-edge science and nutrition, along with case

studies from men and women who have experienced life-changing transformations in their health after waving goodbye to wheat, *Wheat Belly* is an illuminating look at what is truly making Americans sick and an action plan to clear our plates of this seemingly benign ingredient.

The Nobel Prize–nominated Kenyan writer’s powerful first novel *Two brothers*, Njoroge and Kamau, stand on a garbage heap and look into their futures: Njoroge is to attend school, while Kamau will train to be a carpenter. But this is Kenya, and the times are against them: In the forests, the Mau Mau is waging war against the white government, and the two brothers and their family need to decide where their loyalties lie. For the practical Kamau, the choice is simple, but for Njoroge the scholar, the dream of progress through learning is a hard one to give up. The first East African novel published in English, *Weep Not, Child* explores the effects of the infamous Mau Mau uprising on the lives of ordinary men and women, and on one family in particular. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.
