BIG, HOT TO COLD. An Odyssey of Architectural Adaptation by Bjarke Ingels Taschen, 2015 Paperback, 712 pages [Wraparound cover – All images courtesy of Taschen] If Bjarke Ingels' Yes Is More from 2009 didn't reinvent the monograph, it at least injected some new life into it. The BIG helmsman used a comic book format to explain the Danish firm's projects, particularly how those mountainous and curling forms came about.

Book Review: BIG, HOT TO COLD - Blogger

HOT TO COLD communicates BIG's sensibility for creating quality of life through design. What is most impressive is BIG's sensitivity to cultures and clients. As an architectural book it is well designed, projects are organized by climate/ region, allowing the reader to take in the entire book or quickly find a particular interest.

Architecture is the art and science of accommodating the lives we want to live. Our cities and buildings aren't givens; they are the way they are because that is as far as we have come to date. They are the best efforts of our ancestors and fellow planetizens, and if they have shortcomings, it is up to us to continue that effort, pick up where they left off. Bjarke Ingels Group's (BIG) grand mission is to find a pragmatic utopia, shaping not only a particular structural entity, but the kind of world we wish to inhabit. This book examines BIG's odyssey of architectural adaptation

Following up on the best-selling Hot to Cold, Bjarke Ingels Group breaks down their work across time in this ambitious multidisciplinary undertaking. This book is the companion to BIG's far-reaching exhibition and features conversations with the likes of Elon Musk and Ray Kurzweil. We explore the evolution of intelligence, communication, migration, and how architecture and design can literally give form to the future.

Explains how people and animals living in different parts of the world survive in hotter and colder climates using remarkable adaptive strategies and behaviors.

This book, Social Infrastructure: New York, one of a series that documents the Bass Fellowship at the Yale School of Architecture studio led by real estate developer Douglas Durst of the Durst Organization, a leading New York firm known for spearheading sustainable high-rise developments, and architect Bjarke Ingels, founder of Copenhagen- and New York-based Bjarke Ingels Group. Their students explored potential synergies between public and private programs in the design of inhabited bridges crossing major waterways in metropolitan New York. The group traveled to Denmark, Sweden, and Norway to research developments that successfully integrated the needs of numerous stake-holders. The featured projects from the studio demonstrate a diverse range of approaches for combining residential, cultural, and commercial activities on complex and dense infrastructural sites in imaginative and productive ways.

Hot Cold Heavy Light collects 100 writings—some long, some short—that taken together forma group portrait of many of the world’s most significant and interesting artists. From Pablo Picasso to Cindy Sherman, Old Masters to contemporary masters, paintings to comix, and saints to charlatans, Schjeldahl ranges widely through the diverse and confusing art world, an expert guide to a dazzling scene. No other writer enhances the reader's experience of art in precise, jargon-free prose as Schjeldahl does. His reviews are more essay than criticism, and he offers engaging and informative accounts of artists and their work. For more than three decades, he has written about art with Emersonian openness and clarity. A fresh perspective, an unexpected connection, a lucid gloss on a big idea awaits the reader on every page of this big, absorbing, buzzing book.

Missing objects cause Derek, Rory, and Bolivia to accuse each other of lying and stealing. It isn't until the three friends become snowed-in that they come to understand what trust and friendship are all about.

S,M,L,XL presents a selection of the remarkable visionary design work produced by the Dutch firm Office for Metropolitan Architecture (O.M.A.) and its acclaimed founder, Rem Koolhaas, in its first twenty years, along with a variety of insightful, often poetic writings. The inventive collaboration between Koolhaas and designer Bruce Mau is a graphic overture that weaves together architectural projects, photos and sketches, diary excerpts, personal travelogues, fairy tales, and fables, as well as critical essays on contemporary architecture and society. The book's title is also its framework: projects and essays are arranged according to scale. While Small and Medium address issues ranging from the domestic to the public, Large focuses on what Koolhaas calls "the architecture of Bigness." Extra-Large features projects at the urban scale, along with the important essay "What Ever Happened to Urbanism?" and other studies of the contemporary city. Running throughout the book is a "dictionary" of an adventurous new Koolhaasian language -- definitions, commentaries, and quotes from hundreds of literary, cultural, artistic, and architectural sources.

What would you change if you could travel back in time? Down a small alleyway in the heart of Tokyo, there’s an underground café that’s been serving carefully brewed coffee for over a hundred years. Local legend says that this shop offers its customers something else besides coffee—the chance to travel back in time. The rules, however, are far from simple: you must sit in one particular seat, and you can’t venture outside the café, nor can you change the present. And, most important, you only have the time it takes to drink a hot cup of coffee—or risk getting stuck forever. Over the course of one summer, four customers visit the café in the hopes of traveling to another time: a heartbroken lover looking for closure, a nurse with a mysterious letter from her husband, a waitress hoping to say one last goodbye and a mother whose child she may never get the chance to know. Heartwarming, wistful and delightfully quirky, Before the Coffee Gets Cold explores the intersecting lives of four women who come together in one extraordinary café, where the service may not be quick, but the opportunities are endless.
