Baty, T., and J.H. Morgan. War: Its Conduct and Legal Results. New York: E.P. Dutton and Company, 1915. xxviii, 578 pp. Reprint available June 2005 by The Lawbook Exchange. ISBN 1-58477-573-4. Cloth, \$95. * The authors argue that the war has effectively ended the existing system of international law, a system that was already in decline due to the growing economic and political interdependence of states. These changes have created a new set of problems that will provide the basis of international law when the war ends. In addition to supplying an intellectual framework for this new system, Baty and Morgan address practical topics like international arbitration and more abstract issues like clash between nationalism and cosmopolitanism. "[V]ery good reading....It is a thoughtful book.". T.S.W., Yale Law Journal 19:313-314 cited in Marke, A Catalogue of the Law Collection at New York University (1953) 645.

A timely, provocative account of how military justice has shaped American society since the nation's beginnings. Historian and former soldier Chris Bray tells the sweeping story of military justice from the earliest days of the republic to contemporary arguments over using military courts to try foreign terrorists or soldiers accused of sexual assault. Stretching from the American Revolution to 9/11, Court-Martial recounts the stories of famous American court-martials, including those involving President Andrew Jackson, General William Tecumseh Sherman, Lieutenant Jackie Robinson, and Private Eddie Slovik. Bray explores how encounters of freed slaves with the military justice system during the Civil War anticipated the civil rights movement, and he explains how the Uniform Code of Military Justice came about after World War II. With a great eye for narrative, Bray hones in on the human elements of these stories, from Revolutionary-era militiamen demanding the right to participate in political speech as citizens, to black soldiers risking their lives during the Civil War to demand fair pay, to the struggles over the court-martial of Lieutenant William Calley and the events of My Lai during the Vietnam War. Throughout, Bray presents readers with these unvarnished voices and his own perceptive commentary. Military justice may be separate from civilian justice, but it is thoroughly entwined with American society. As Bray reminds us, the history of American military justice is inextricably the history of America, and Court-Martial powerfully documents the many ways that the separate justice system of the armed forces has served as a proxy for America's ongoing arguments over equality, privacy, discrimination, security, and liberty.

The 50s have been idealized in nostalgia for the naivet of the populace and the birth of rock and roll music. But there were other factors at work that greatly affected the lives of the 50s generation. Factors such as the Korean police action, a military that had not yet fully accepted the idea that a soldier could be acquitted at a court-martial, and a society that wasnt quite ready for religious and racial harmony. COLLEGE-BOY LIEUTENANT is a story of a young man, STEVE STILLMAN, who joins the Reserve Officers Training Corps (ROTC) so he can complete his college career without being drafted into the Army. As he graduates, marries, and enters the service as a second lieutenant, Steve encounters a myriad of situations. His education into the Army way and his growth from boyhood to manhood in the 50s military and its culture are major factors in this sometimes humorous, sometimes serious novel. When Steve reports for duty at Fort Lee, Virginia, he leaves his new wife, LAURA, behind because she is expecting their first child in little over a month. This provides him with the opportunity to experience barracks living and to make friends with two other young lieutenants, each of a different religion. As the weeks go on, the young men experience attitude changes and are toughened by their training. They decide to attend religious services together weekly in a nearby town and the search for an acceptable religious facility is disturbing but results in an easy choice. The training progresses through classroom work where Korean Army officers are included. Language differences lead to some hi-jinx but the striking philosophical differences become apparent. When the training finally ends, Steve and one of his two friends, SKEETER WALTERS, are assigned to remain at Fort Lee. They both take 15-day leaves to make family arrangements: Steve to move Laura and their new baby to Virginia and Skeeter to marry his childhood sweetheart and move her there, too. When Steve and Laura arrive at their new apartment in Virginia, they busy themselves with the usual matters of getting accustomed to a new community. Meanwhile, Steve learns he has no real duties in the Army and he breaks a cardinal rule by asking for an assignment. Meantime, Lauras mother comes for a visit and is appalled by their living quarters, persuading them to move. There are two important developments as Steve and Laura begin to search for a new apartment. First, Steve is appointed Assistant Defense Counsel for Special Courts-Martial and the soon-to-be-discharged Defense Counsel gives him an education on the astounding military system of jurisprudence. In addition, he learns the unpleasant reason why Skeeter did not resume their friendship. When Skeeter tells Steve the apartment next to his is available, Steve and Laura decide to rent it, hoping that proximity will alleviate the problem. Steves work after appointment to the court becomes one of the main elements of this story through the several court battles that take place. Some reveal the basic unfairness of the military system while others have a dramatic or humorous twist. His blossoming abilities result in an offer to be sent to law school but an evening at the officers club and a blatant example of the dictatorial nature of the system convinces him otherwise. Meanwhile, a second job assignment - that of Post Ration Breakdown Officer - becomes another main story element. Responsible for the issue of all food at the army post, Steve learns how to wield the power of the militarys true currency, coffee. He uses it to acquire a field jacket, electric calculators, and powerful friends who save the day more than once. Woven throughout the story are the day-to-day worries of Army life, the day-to-day problems of a young married couple with a baby living in a less than conventional environment, and the humorous incidents relevant to both. One particul
