The only thing better than living the Christian life is relishing the Christian life! The joy-filled life with Jesus is one of the greatest privileges that God has given to you and to me. But such a life is not intuitive, natural, or easy for us. We are born with natures that draw us away from God. How can you and I collaborate with Him so that He can be victorious over our natures and give us a deep relish for Him, consistent victory over chosen sin, and true peace and joy even amid the storms of life? Only God can do it...but only you and I can let Him.

This collection of ideas for lessons provides school librarians with inspiration for meeting the tsunami of new standards dictating change for today's next generation learners. • Saves librarians planning time • Furnishes ideas for collaboration • Teaches research skills for librarians who collaborate with a classroom teacher as well as those who do not • Prepares students who are curious and want to learn • Incubates inquiry

Substantial research has been put forth calling for the field of social studies education to engage in work dealing with the influence of race and racism within education and society (Branch, 2003; Chandler, 2015; Chandler & Hawley, 2017; Husband, 2010; King & Chandler, 2016; Ladson-Billings, 2003; Ooka Pang, Rivera & Gillette, 1998). Previous contributions have examined the presence and influence of race/ism within the field of social studies teaching and research (e.g. Chandler, 2015, Chandler & Hawley, 2017; Ladson-Billings, 2003; Woynshner & Bohan, 2012). In order to challenge the presence of racism within social studies, research must attend to the control that whiteness and white supremacy maintain within the field. This edited volume builds from these previous works to take on whiteness and white supremacy directly in social studies education. In *Marking the "Invisible"*, editors assemble original contributions from scholars working to expose whiteness and disrupt white supremacy in the field of social studies education. We argue for an articulation of whiteness within the field of social studies education in pursuit of directly challenging its influences on teaching, learning, and research. Across 27 chapters, authors call out the strategies deployed by white supremacy and acknowledge the depths by which it is used to control, manipulate, confine, and define identities, communities, citizenships, and historical narratives. This edited volume promotes the reshaping of social studies education to: support the histories, experiences, and lives of Students and Teachers of Color, challenge settler colonialism and color-evasiveness, develop racial literacy, and promote justice-oriented teaching and learning. Praise for *Marking the "Invisible"* "As the theorization of race and racism continues to gain traction in social studies education, this volume offers a much-needed foundational grounding for the field. From the foreword to the epilogue, *Marking the "Invisible"* foregrounds conversations of whiteness in notions of supremacy, dominance, and rage. The chapters offer an opportunity for social studies educators to position critical theories of race such as critical race theory, intersectionality, and settler colonialism at the forefront of critical examinations of whiteness. Any social studies educator -researcher concerned with the theorization or teaching of race should engage with this text in their work." Christopher L. Busey, University of Florida

Judy's big plans for the summer seem ruined when two of her best friends go away, and then her parents leave her and Stink with Aunt Opal, but a new "thrill-a-delic" plan has her racing toward fun.

Every golfer dreams of making a pilgrimage to the British Isles, and it sometimes seems as though every golfer is in fact making that pilgrimage, especially when you're trying to book a tee time. The legendary courses of Scotland and Ireland are magnificent shrines, but their fame has obscured the greatness of the golf to be found all across the landscape of England and Wales. From the heathland in the north and center to the linksland on the coasts, England and Wales present an extraordinary variety of great golf experiences. In *All Courses Great and Small*, James W. Finegan treats the reader to a countries-wide survey of these golfing delights -- some famous, like the Open Championship venues of Royal Birkdale, Royal Lytham & St. Annes, and Royal St. George's; some well known, like Sunningdale, Wentworth, and The Belfry; and some gems that have long been hidden in plain sight, like The Addington (in suburban London) or Southport & Ainsdale (not ten minutes from Royal Birkdale). There are as many outstanding courses in England and Wales as there are in Scotland and Ireland combined, a shocking fact that is easily explained: While Scotland has 5.2 million people and 550 golf courses, and Ireland has 3.5 million people and 400 courses, England and Wales have 50 million people and more than 2,000 courses. Finegan provides a charming guide

to the courses and the towns, the inns and the eateries to be found along the way. He highlights the best of the not quite four thousand holes in Blackburn, Lancashire; gives advice about lunch after your round at Sandwich; raises a cup of grog at Gog Magog; and tackles the playing and pronouncing problems posed by Pwllheli. He gives full due to the best-known places such as Rye, Wentworth, Hoylake, and the royals, but he also declares such lesser-known treasures as St. Enodoc, Silloth-on-Solway, Southerndown, and Pennard to be every bit as worthy of your time and attention. His books on the courses of Scotland and Ireland, Blasted Heaths and Blessed Greens and Emerald Fairways and Foam-Flecked Seas, have become invaluable companions to thousands of travelers; All Courses Great and Small is an irresistible and even more essential addition to the touring golfer's shelf and suitcase.
