## Grade 8 Science

for All Americans  
defined the science-  
literate

American--describing  
the knowledge, skills,  
and attitudes all students  
should retain from their  
learning

experience--and offered  
a series of  
recommendations for  
reforming our system of  
education in science,  
mathematics, and

# Read Book

## Grade 8 Science

technology.

Benchmarks for Science Literacy takes this one step further. Created in close consultation with a cross-section of American teachers, administrators, and scientists, Benchmarks elaborates on the recommendations to provide guidelines for what all students should know and be able to do

# Read Book

## Grade 8 Science

in science, mathematics, and technology by the end of grades 2, 5, 8, and 12. These grade levels offer reasonable checkpoints for student progress toward science literacy, but do not suggest a rigid formula for teaching.

Benchmarks is not a proposed curriculum, nor is it a plan for one: it is a tool educators can

# Read Book

## Grade 8 Science

use as they design curricula that fit their student's needs and meet the goals first outlined in Science for All Americans. Far from pressing for a single educational program, Project 2061 advocates a reform strategy that will lead to more curriculum diversity than is common today. IBenchmarks emerged

# Read Book

## Grade 8 Science

from the work of six diverse school-district teams who were asked to rethink the K-12 curriculum and outline alternative ways of achieving science literacy for all students. These teams based their work on published research and the continuing advice of prominent educators, as well as their own

# Read Book

## Grade 8 Science

teaching experience.

Focusing on the understanding and interconnection of key concepts rather than rote memorization of terms and isolated facts, Benchmarks advocates building a lasting understanding of science and related fields. In a culture increasingly pervaded by science,

# Read Book

## Grade 8 Science

mathematics, and technology, science literacy require habits of mind that will enable citizens to understand the world around them, make some sense of new technologies as they emerge and grow, and deal sensibly with problems that involve evidence, numbers, patterns, logical arguments, and
