This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

In Jaguar from the Shop Floor, Brian Martin tells the story of his life as a long-time employee at Jaguar, giving a first-hand account of the development and production processes, and the ups and downs of factory life through the eyes of someone who was actually there. In this part-autobiographical and part-historical account, the author tells of his childhood in a typical working family of the depression era, and then describes his career from starting at the Jaguar factory in 1949, through a spell doing national service in the RAF and then going back to Jaguar. He left briefly in 1972 to try other jobs, but returned to the factory in the mid-1970s. Providing a fascinating insight into the Jaguar production process, the book also covers the development of the XK120, Mk V, Mk VII, MK X. The Mark 1 and 2 (2.4, 3.4 & 3.8 litre) saloons, the XKSS, E1A, E2A, lightweight E Types, XJ6 XJ12 & XJS.
