In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, *The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution* includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalfindex.

A celebration of the diversity and evolution of birds, as depicted in the Cornell Lab of Ornithology's magnificent 2,500-square-foot Wall of Birds mural by artist Jane Kim. Part homage, part artistic and sociological journey, *The Wall of Birds* tells the story of birds' remarkable 375-million-year evolution. With a foreword by John W. Fitzpatrick, director of the Cornell Lab of Ornithology, and full of lush photographs of gorgeous life-size birds painted in exacting detail, *The Wall of Birds* lets readers explore these amazing creatures family by family and continent by continent. Throughout, beautifully crafted narratives and intimate artistic reflections tell of the evolutionary forces that created birds' dazzling variety of forms and colors, and reveal powerful lessons about birds that are surprisingly relevant to contemporary human challenges. From the tiny five-inch Marvelous Spatuletail hummingbird to the monstrous thirty-foot Yutyranus, *The Wall of Birds* is a visual feast, essential for bird enthusiasts, naturalists, and art lovers alike.

“Powerful. . . . a revelation.” —The New York Times “With a literary authority rare in a debut novel, it places Native American voices front and center before readers’ eyes.” —NPR/Fresh Air One of The New York Times 10 Best Books of the Year and winner of the PEN/Hemingway Award, Tommy Orange’s wondrous and shattering bestselling novel follows twelve characters from Native communities: all traveling to the Big Oakland Powwow, all connected to one another in ways they may not yet realize. Among them is Jacquie Red Feather, newly sober and trying to make it back to the family she left behind. Dene Oxendene, pulling his life together after his uncle’s death and working at the powwow to honor his memory. Fourteen-year-old Orvil, coming to perform traditional dance for the very first time. Together, this chorus of voices tells of the plight of the urban Native American—grappling with a complex and painful history, with an inheritance of beauty and spirituality, with communion and sacrifice and heroism. Hailed as an instant classic, *There There* is at once poignant and unflinching, utterly contemporary and truly unforgettable. One of the Best Books of the Year: The Washington Post, NPR, Time, O, The Oprah Magazine, The Dallas Morning News, GQ, Entertainment Weekly, BuzzFeed, San Francisco Chronicle, The Boston Globe

A tour de force of love and loneliness, war and art, *Killing Commendatore* is a stunning work of imagination from one of our greatest writers. When a thirty-something portrait painter is abandoned by his wife, he secludes himself in the mountain home of a world famous artist. One day, the young painter hears a noise from the attic, and upon investigation, he discovers a previously unseen painting. By unearthing this hidden work of art, he unintentionally opens a circle of mysterious circumstances; and to close it, he must undertake a perilous journey into a netherworld that only Haruki Murakami could conjure.

This manual has been designed and written with the purpose of introducing key concepts and areas of debate around the "creative economy", a valuable development opportunity that Latin America, the Caribbean and the world at large cannot afford to miss. The creative economy, which we call the "Orange Economy" in this book (you'll see why), encompasses the immense wealth of talent, intellectual property, interconnectedness, and, of course, cultural heritage of the Latin American and Caribbean region (and indeed, every region). At the end of this manual, you will have the knowledge base necessary to understand and explain what the Orange Economy is and why it is so important. You will also acquire the analytical tools needed to take better advantage of opportunities across the arts, heritage, media, and creative services.
