The minimum age for entrance into Brazilian adult school is 18 for the elementary level and 21 years of age for the secondary level. The Brazilian Ministry of Education and the state secretariats provide support for Adult Education through special courses, equivalent to the American GED, which can be taken in schools or via an online format.

The Education System in Brazil – StudyCountry.com

Eric and Raquel live in Brazil's biggest city, Sao Paulo, but although their schools are just 40km (25 miles) apart, there is a world of difference in the education they are getting. Raquel, 16, is...

Dance has the power to change the lives of young people. It is a force in shaping identity, affirming culture and exploring heritage in an increasingly borderless world. Creative and empowering pedagogies are driving curriculum development worldwide where the movement of peoples and cultures generates new challenges and possibilities for dance education in multiple contexts. In Dance Education around the World: Perspectives on Dance, Young People and Change, writers across the globe come together to reflect, comment on and share their expertise and experiences. The settings are drawn from a spectrum of countries with contributions from Europe, the Americas, the Middle East, Asia, the Pacific and Africa giving insights and fresh perspectives into contrasting ideas, philosophies and approaches to dance education from Egypt to Ghana, Brazil to Finland, Jamaica to the Netherlands, the UK, USA, Australia, New Zealand and more. This volume offers chapters and narratives on: Curriculum developments worldwide Empowering communities through dance Embodiment and creativity in dance teaching Exploring and assessing learning in dance as artistic practice Imagined futures for dance education Reflection, evaluation, analysis and documentation are key to the evolving ecology of dance education and research involving individuals, communities and nations. Dance Education around the World: Perspectives on Dance, Young People and Change provides a great resource for dance educators, practitioners and researchers, and pushes for the furtherance of dance education around the world. Charlotte Svendler Nielsen is Assistant professor and head of educational studies at the Department of Nutrition, Exercise and Sports, research group Body, Learning and Identity, University of Copenhagen, Denmark. Stephanie Burrridge lectures at Lasalle College of the Arts and Singapore Management University, and is the series editor for Routledge Celebrating Dance in Asia and the Pacific.

For more than half a century, the NCAA has been one of the most powerful institutions in America, acting to prevent college athletes from receiving any money from their labours while enriching everyone else involved in college sports. In 2000 a few brave individuals took on this cartel, and paved the way for others to do the same. This is the story of a small band of renegades who, against all odds, took on the NCAA, nearly bringing it to its knees, and exposing its tyranny to a new wave of challengers.

How can open and distance learning and information and communications technology (ICT) provide us with more – and better – teachers? Open and distance learning is increasingly used in teacher education in developing and developed countries. It has the potential to strengthen and expand the teaching profession of the twenty-first century and to help achieve the target of education for all by 2015. Teacher Education Through Open and Distance Learning examines the case for using open and distance learning and ICT to train our educators. It describes and analyses the ways in which these methods and technologies are used for: *initial teacher training and continuing professional development *training principals and school managers *training those who provide non-formal adult and community education *communities of practice and sharing of knowledge and ideas within the teaching profession It also discusses the policy-making, management, technology, costing, evaluation and quality assurance aspects of this work. The contributors are outstanding practitioners in the field. The first review in over a decade, Teacher Education Through Open and Distance Learning draws on wide-ranging and international experience to summarise the strengths and weaknesses of new approaches to the education of teachers. It offers invaluable guidance to policymakers, planners, headteachers and teachers.

This volume includes the full proceedings from the 1991 Academy of Marketing Science (AMS) Annual Conference held in Fort Lauderdale, Florida. The research and presentations offered in this volume cover many aspects of marketing science including marketing strategy, consumer behavior, international marketing, services marketing, marketing education, among others. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complementing the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science.

Could information and communication technology (ICT) become the transformative tool for a new style of global development? Could ICT promote knowledge-based, innovation-driven, and smart, adaptive, participatory development? As countries seek a way out of the present period of economic contraction, they are trying to weave ICT into their development strategies, in the same way organizations have learned to use ICT to transform their business models and strategies. This integration offers a new path to development that is responsive to the challenges of our times. In e-Transformation, Nagy Hanna identifies the key ingredients for

the strategic integration of ICT into national development, with examples from around the world. He draws on his rich experience of over 35 years at the World Bank and other aid agencies to outline the strategic options involved in using ICT to maximize developmental impact—transforming public service institutions, networking businesses for innovation and competitiveness, and empowering communities for social inclusion and poverty reduction. He identifies the key interdependencies in e-transformation and offers a holistic framework to tap network effects and synergies across all elements of the process, including leadership, cyber policies, institutions, human resources, technological competencies, information infrastructure, and ICT uses for government, business, and society. Integrating analytical insights and practical applications across the fields of development, political economy, public administration, entrepreneurship, and technology management, the author candidly argues that e-transformation, like all bold ideas, faces implementation challenges. In particular, the aspiration–reality gap needs to be systematically addressed if ICT-enabled innovation and transformation is to become a development practice. E-transformation is first and foremost about thinking strategically and creatively about the options made possible by the information technology revolution in the context of globalization. To this end, the author provides tools and best practices designed to nurture innovation, select entry points, prioritize among competing demands, and sequence and scale up. He outlines the roles of all participants—political, managerial, entrepreneurial, social and technical—whose leadership is essential for successful innovation.

"This book is about the threats to education quality in the developing world that cannot be explained by lack of resources. It reviews the observed phenomenon of service delivery failures in public education: cases where programs and policies increase the inputs to education but do not produce effective services where it counts – in schools and classrooms. It documents what we know about the extent and costs of such failures across low and middle-income countries. And it further develops the conceptual model posited in the World Development Report 2004: that a root cause of low-quality and inequitable public services – not only in education – is the weak accountability of providers to both their supervisors and clients. The central focus of the book, however, is a new story. It is that developing countries are increasingly adopting innovative strategies to attack these problems. Drawing on new evidence from 22 rigorous impact evaluations across 11 developing countries, this book examines how three key strategies to strengthen accountability relationships in developing country school systems have affected school enrollment, completion and student learning. The book reviews the motivation and global context for education reforms aimed at strengthening provider accountability. It provides the rationally and synthesizes the evidence on the impacts of three key lines of reform: (1) policies that use the power of information to strengthen the ability of clients of education services (students and their parents) to hold providers accountable for results; (2) policies that promote school-based management—that is increase schools' autonomy to make key decisions and control resources, often empowering parents to play a larger role; (3) teacher incentives reforms that specifically aim at making teachers more accountable for results, either by making contract tenure dependent on performance, or offering performance-linked pay. The book summarizes the lessons learned, draws cautious conclusions about possible complementarities across different types of accountability-focused reforms if they are implemented in tandem, considers issues related to scaling up reform efforts and the political economy of reform, and suggests directions for future work."

Adventures of a "Gringo" Researcher in Brazil in the 1960s or In Search of Cordel is an entertaining and informative account of Professor Curran's first foray in Brazil. In this book he tells two stories: the research to collect cordel and, perhaps more importantly, the travel and the adventures of the year in Brazil. The two are inseparable and complement each other. Chapters include Recife and the Northeast, Travels to the interior of the Northeast, research in Brazil's colonial capital of Salvador da Bahia, research and tourism in Rio de Janeiro, trips to the interior of Rio, including Ouro Preto, Congonhas do Campo, and a memorable trip on a wood-burning stern wheeler on the Sao Francisco River in Minas Gerais and Bahia, and finally, research in the Amazon Basin, including both Belem do Para and Manaus. The account is not in academic language but in a colloquial, conversational style. Curran writes as one sitting down with the reader and telling tales of his travels, and perhaps with the author and reader enjoying a caipirinha, or a Brazilian draft beer choppe as they talk.

A champion of the poor and advocate for women, Afro-Brazilian Senator Benedita de Silva shares the sometimes heart wrenching, always inspiring story of her life. Illustrations & photos.

Miracles are everywhere, if only we open our hearts and minds in belief that we are never alone. Luke 8:48 A Supernatural Journey of Faith, reaffirms there are countless benevolent forces across the universe to help us. The true story of how my Dad never once lost his faith, despite a lifetime of horrible pain and suffering. Plagued with adversity from birth, he remained steadfast in his beliefs. This journey of unspeakable suffering and impenetrable faith would last for over sixty years, leading to a visiting angel with the message that his torment was over, he was healed. My unusual childhood allowed me to witness many miracles surrounding him and our family. Little did I know, these supernatural events would pave the way for a personal connection with the Other Side after my own near death experience. Join me on this amazing journey of love, mystery, paranormal happenings, pain, and blessings.

Eddie is a hot-headed young man struggling with the monotonous and meaningless drudgery of work in the corporate world. So, finally, he decides to do something about it – Eddie quits his job and moves to Rio de Janeiro. The wonders of this beautiful country enrich his life, as does a lovely young woman whom he happens to meet under the most amazing of circumstances. Their romance flourishes and, before he knows it, Eddie has a new bride and a young daughter. The family moves back to the United States; but Eddie's wife longs to return to Brazil and her unhappiness in America destroys the marriage. She kidnaps their daughter and moves to Brazil without a word to Eddie. What will Eddie do to see his daughter again? Red, White & Betrayal touches the soul of every parent, wondering, what would I do? A story of love, loss, action and adventure, coming together, on a multi-cultural tightrope of intrigue set in some of the most exotic locations in the world.
